SUMMARY

Computer Science undergraduate with international experience in France, the UK, and the U.S. Developed Python, Java, and web development projects, including an AI chatbot platform for 30+ small business clients. Managed budgets of €15,000 for UNICEF projects, coached 50+ children weekly in golf, and led team-based hackathon and coding projects. Completed virtual data science and AI chatbot programs with British Airways and BCG, demonstrating technical competence and measurable impact.

EXPERIENCE

Founder & Developer – Villichat | 2024 – Present | Location
- Founded and developed Villichat.com, providing AI assistants for 30+ small business clients, automating 100+ client-specific tasks monthly
- Developed web platform using Python, Flask, OpenAI API, HTML/CSS, and JavaScript, serving over 500 users in the first 6 months

Golf Counselor – Windridge Camp | 06/2025 – 08/2025 | Vermont, USA
- Delivered group and individual golf coaching to 50+ children weekly, designing drills that increased participation and skill retention by 20%
- Managed scheduling, equipment, and safety protocols across an 8-week program with zero incidents
- Collaborated with staff to organize 5 tournaments, engaging over 100 participants

Treasurer – UNICEF | 2023 – 2024 | Toulouse, France
- Managed financial records for €15,000+ in UNICEF projects, reconciling accounts monthly and preparing quarterly budgets
- Supported fundraising campaigns, contributing to 10+ successful community events
- Streamlined reporting, reducing discrepancies by 15%

Chef Assistant – Golf Club Las Martines | 2022 – 2024 | Toulouse, France
- Maintained hygiene and organization for a kitchen serving 100+ meals daily, reducing inventory errors by 15%
- Assisted in preparing ingredients for 5–6 large events per month, ensuring timely service and consistent quality
- Coordinated with a team of 6 chefs to improve workflow efficiency by 10%
